U. S. TO STAY OUT OF DEBT PARLEY

Coolidge Announces Hands Off in Reparations

O. K.'S LOAN TO GERMANY

U. S. Bankers Ready if Economic Peace Will Result

BY LAWRENCE MARTIN (Copyright 1934 by the United Press)

WASHINGTON, Sept. 12.—The Coolidge administration will decline to enter a world conference on reparations and war debts, if Europe invites the United States into such a parley with the purpose of delaying payment or of reducing the principal of the sums owed this government.

This government, however, will favor extension by American bankers of credits to Germany, if negotiations now under way result in a reparations agreement.

U. S. Bankers Ready.

American bankers are ready to participate to the extent of possibly \$2,000,000,000 in such a loan, officials here have learned. If the carefully worked out plans of a reparations settlement would restore economic peace to the world, a loan of from \$1,000,000,000 to \$2,000,000,000 for Germany would follow an agreement, among Germany, France, Italy and Great Britain and relaxation of the French grip on the Ruhr.

Thirty to forty per cent of the sum decided on would be sought in the United States and eventually American investors might be asked to buy bonds intended to raise the money to provide credits for Germany.

The effect of such a loan would be immediately reflected in American industry and commercial life. It is believed here that the war plans to the allies would be largely spent in this country.

Information reaching American officials is that the loan to Germany would be guaranteed by the allied governments and would be administered by the league of nations.

The refusal of the administration to enter a debt conference rests upon the same reasons which prompted the Harding administration to reject similar advances from European statesmen. With a presidential election coming on, these reasons are all the stronger.

Jansen Suit Against Port Arthur Set for Trial in 58th Court

Special to The News.

BEAUMONT, Texas, Sept. 12.—Hearing in the case of John H. Jansen vs. the city of Port Arthur is set for hearing in the 58th district court Monday morning, September 17, before Judge O'Brien, court attached here announced today.

Jansen, who resides at 1345 Richmond avenue in Port Arthur, brought suit against the city, Police Chief W. W. Corington, Mayor Pink Logan and the commissioners when Assistant Police Chief Bailey placed his son under arrest and wrote "hold for investigation" against the youth's name on the police blotter.

It was first reported the case would be heard in the 60th district court, but court attaches announced this morning that it had been set for trial before Judge O'Brien in the 58th.

BESSIE CARL SHOT, BELIEF

Bullet Found in Ground Under Where Body Lay

BEAUMONT, Texas, Sept. 12.—Did Bessie Carl, whose murdered body was found in a secluded bit of swamp land near here, momentarily regain consciousness while she was being attacked?

Did the murdered young girl see the final parts of the battle her body does not wish to tell.

P. O. Hall, whose body was found near here, was fighting with a small pocket knife in his defense.

Belief that the girl was killed where her body was found, and not as first thought at the scene where the abandoned car was discovered, was voiced by officials investigating the double murder Wednesday.

With the entrance into the case of this new aspect, the mystery reverts to those first phases discussed at the time of the discovery of the bodies a week ago today.

Conflicting Theories.

Because of the discovery of the bullet, alleged to have killed the girl, from near where her body was discovered, police think "she was killed where the body was found."

It is believed now that both were clubbed into insensibility and the murderer not wishing to have their crime discovered, or "blowed," discarded the insensible forms of the two lovers in a wagon to where they were found. By virtue of the finding of the bullet at the latter spot, it may be that the girl regained consciousness after being taken there and for fear she had identified her assailant was shot through the head.

Persons on the bullet discovered underground adjacent to the bodies when viewed, indicate that the girl might have been shot through the mouth, a tooth also having been found. With the new angle entering the case, authorities have relinquished their efforts to run down the assailants.

A hurry call sent in from McFadden's beach on the Gulf, stating that two half-naked, poorly clad negroes were being freed there, was investigated by sheriff's officers, but nothing came of the investigation.

Remains totaling \$5,000 have been posted here for the apprehension of the party or parties responsible for the two killings.

WELL-ACTED MELODRAMA.

With Frank Keenan playing an Alabama colonel as only he can portray such a part, and with Lloyd Hughes as the "Ajah" boy who proves that the blood of the French nobles still flows in his veins, while Marguerite de la Motte portrays the aristocratic southern girl as though in the manner born, "Scars of Jealousy" is reported to be well presented and excellently acted melodrama. Love, jealousy, bitter hatred of class for class, all are shown, and the gamut of all the emotions is run throughout the course of the bill. ACCUSES WIFE OF DOUBLE LIFE**Divorce Petition Alleges Bad Check Artist**

LOS ANGELES, Cal., Sept. 12—Revealing the strange story of a wife who was alleged to have lived a double life during the week she was married to her husband and finally was arrested on a charge of leaving checks without funds, a complaint for divorce was filed by Henry N. Guenier against Jeanne Guenier.

Although they lived together a week, technically speaking, Guenier saw very little of his wife during that time, it was stated.

The complaint recited that they were married August 9 last, and the day after, Guenier declared his bride announced she was going to Pasadena to visit her sister. When he came home to dinner there was no wife and she did not put in an appearance until the following afternoon, he alleged.

The night of the day she did return she again stated she was going to see her sister and left, returning the following day, Sunday at 2 p. m., Guenier declared.

Monday she was said to have announced she was going to San Diego to see her sister, but returned Tuesday and left again Thursday.

She was gone from Thursday to Sunday, and when she came home a police officer was waiting for her and took her into custody on the check charge, it was stated.

Guenier declared he believed his wife did not go to her sister but stayed at a hotel room in Los Angeles. A number of articles he said he purchased and which she was said to have told her husband were for her sister, he said were found in her hotel room.

Star Witness in Baby Case Suddenly Leaves; Suit Is Complicated

PORT WORTH, Texas, Sept. 12.—Disappearance of Mrs. Agnes Darrah, principal witness, today had added to the complications of the \$30,000 divorce suit brought by Mrs. Zelma Adams, former chorus girl, against Mrs. Cora Gregory, proprietress of a maternity home here.

In her suit Mrs. Adams alleges Mrs. Gregory took her child from her shortly after its birth.

Mrs. Darrah, suffering from cancer, was said to have been carried from her home on a stretcher. She told Judge Hall Lattimore that she knew the whereabouts of Mrs. Adams' baby but refused to tell. The court ruled Monday that Mrs. Darrah must tell what she knew about the child's disappearance or go to jail or a hospital.

Hotel employees said they did not know where Mrs. Darrah went, saying she left a note explaining she had gone away for a rest.

Procter Street Paving Repair Being Pushed

With the east side of Procter street blocked off and traffic turned to the west side, reconstruction of the deteriorating road through the city is being pushed ahead by Smith Brothers Construction company, it was learned this morning.

Considerable progress has been made on the \$7,500 program necessary to completely renovate the totted pavement, and it is understood North Procter will be finished within a short while.

According to engineers in charge of the work, when several portions of the paving was torn away recently, the concrete base found beneath the topping was discovered to be in a powdered form. The condition was described by the engineers as "a queer job of concrete."

Bus Ordinance Is Passed by Beaumont After a Long Battle

BEAUMONT, Texas, Sept. 12.—The bus ordinance received the approval of the Beaumont city council when they met Tuesday night. It called forth a great deal of criticism when it was first proposed and plans were made to operate between Beaumont and Port Arthur.

The revised ordinance provides for a license ranging from \$15.00 to \$50, a bond requirement of \$2000 per passenger and a seating limit for 16 passengers. The ordinance provides that the bus shall not be allowed to operate on certain main streets of the city.

Baton Rouge Lady Says Tanlac Has Ended Her Years of Suffering

MRS. G.M. DELAUNE

Mrs. Gilhe May DeLaune, 501 Main St., Baton Rouge, La., binds her name to further the cause of Tanlac, the treatment that has been so beneficial to her. Mrs. DeLaune says:

"For several years dyspepsia so weakened my stomach that I was frequently unable to retain food, and as a result I became terribly run down. After eating I suffered great distress from the formation of gas in my stomach, no strength and no tone. I could hardly attend to my daily duties, and my nerves gave way."

"Not until I went to taking Tanlac did I get any relief and a few weeks of the treatment built me up greatly, overcoming my stomach trouble, and adding ten pounds to my weight. Tanlac is a splendid medicine for troubles of the stomach."

"I can say for only by all good drugs, Tanlac is my substitute. Over 27 years old."

"Tanlac is Nature's own medicine. For sale everywhere."

IDENTIFY FEW QUAKE VICTIMS

Thousands Seek Loved Ones On Crematory Piles

TOKIO, Sept. 12.—Muffled scenes are being enacted, particularly at Yokohama, as the work of cremative bodies and clearing the wreckage left by the Japanese horror of September 1 is getting under way.

At Yokohama, where the havoc was the greatest, great crowds are roaming through the ruins of the city where thousands of persons were burned alive, trying to pick the bodies of their relatives from the seemingly countless numbers of corpses.

The bodies, some burned crisp, others merely still recognizable, are piled up like cordwood awaiting cremation on vast funeral pyres.

Comparatively few of the bodies are being identified, yet the efforts of the survivors are unending.

Stories coming from Yokohama tell of the people there, trapped in crumbling buildings and all escape cut off by fire, singing the folk songs of Japan as they awaited, unflinchingly, certain death.

The death toll in the Yokohama theatrical district, particularly in the motion picture houses, was especially heavy.

Almost with the ground still quivering, plans for reconstruction are going ahead.

Former Yamato has been named chief of the reconstruction commission which expects to spend five billion dollars in rebuilding Tokio alone.

Competent Man May Be Disqualified Due To Section of Charter

BEAUMONT, Texas, Sept. 12.—The question of whether a man could qualify as a member of the city council if his wife was a school teacher was raised Tuesday night when that body met to name a successor to Dr. J. B. Swonger, recently resigned councilman. A committee named to nominate a new member reported that a man well qualified to fill the position had been found, but that they did not know if he was eligible since the city charter provides that none may hold a high public office if a dependent is also in the employ of the city.

U S GIRLS BETTER THAN EUROPEAN

Rev. Knobel Changes Mind After Old-World Tour

NEW YORK, Sept. 12.—The European girl is far more depraved morally than her American sister, according to Rev. Dr. Frederick H. Knobel, president of the United Lutheran church of the United States and Canada, who has just returned from a visit overseas.

Before going to Europe Dr. Knobel had stated that the morality of the American girl was at its lowest ebb.

He is now convinced conditions in Europe are even worse, he declared. "There are dreadful impurities among young and old in Germany," he stated. "An illicit was necessary to close theaters whose chief feature was nudity."

Prison Head Criticizes U. S. Penal System

KANSAS CITY, Mo., Sept. 12.—Federal prisons are failing to keep pace with state institutions in improvements, installation of modern methods and handling of men, Dr. H. H. Votaw, superintendent of prisons from the department of justice said here today.

"The government has not learned yet to keep first offenders segregated from hardened criminals," Dr. Votaw said.

"Also prisoners not employed in useful work. It is foolish to keep a man locked up in semi-idleness for ten years, and then expect him to be industrious upon his release."

THE YELLOW SEVEN RUN TO EARTH

BY EDWARD SHALL.

ILLUSTRATED BY RANDOLPH HIGDON

ONEA SERVICE INC. 1213.

BEGIN HERE TODAY

Captain John Hewitt is commissioner of police at Jewett, British North America. This beautiful winter, Monica Vane, a girl of Chinese descent, was taken to the police station. Pennington is assisted by his chief-of-staff, Robert Phil, who has the head of an expedition to capture (Chad) Seven. They move toward the bandit's latest hiding place.

NOW GO ON WITH THE STORY

"Brought anything to sleep on?" "My boy is in sole possession of a motor traveling bag and a water-proof sheet. The bag is inside the waterproof sheet, so it's bound to be dry."

"Well, that's good enough, isn't it?"

Dawson sighed heavily. "It would be, if I knew where the young idiot was. Unfortunately, we lost one another a decent while back and I've a notion at the back of my head that he's somewhere out there somewhere out of the ground-sheet and is peacefully sleeping with my rug round his dirty shoulders."

Pennington surveyed the other dubiously. "Suppose I'll have to fix you up. What part of you want to take in the slow tomorrow? How does the first storming party appeal to you?"

"It doesn't. I've put myself down already for the foreign legion—when everything has been failed, and I've sufficient confidence in you to refuse to believe in failure. How many of these things am I supposed to take?"

"Three's a good number. Hello, here's Clay."

Dawson nodded toward the opening. "Evening, Clay?"

"Evening, Dawson! I say, Pennington didn't you say the sign of the Yellow Seven was a warning of death?"

"That's right, why?"

"Well, when I left you I walked straight to where I left my kit. The orderly had fixed up the tent and laid out my bed. It's a clean, baggy, know, and he's never quite got the hang of it. I turned back the cover to see what he'd done—and there was this."

"He dropped on to the deal table a yellow Chinese playing card with seven black dots on the upper surface."

"Good Lord! Have you tackled your man?"

Clay shook his head. "That's the devil of it. I can't find him anywhere."

Pennington strode to the opening and looked out.

"Dawson had better stop here," he jerked back over his shoulder. "Clay and I will embark upon a tour of inspection. There's a weak point somewhere—and it's up to us to find it."

The district officer had drawn the blanket over his head until he resembled an Indian square.

"I suppose I'm in full charge while you're away and am at liberty to help myself to the bottle. While fully realizing the necessity for visiting outside on the eve of battle, I suggest you'll excuse me, I know if I suggest you've both got the wind-up for nothing."

The man at the opening swung round on his heel.

"How do you make that out?"

Dawson met his gaze without flinching.

"You're on the verge of tumbling to the nearest live trap our worthy antagonist has ever planned. Because (Chad) Seven has succeeded in communicating with the outer world, it doesn't imply that he had to find a flaw in the line to do so. You're indignantly proud of your jungle telegraph. The Yellow Seven probably employ a system that is equally efficient. A friend beyond the channel circle is communicated with. He drops a card casually in the enemy's camp—in a place where it can hardly fail to be noticed. Result—panic at 6. H. U. tone of mistrust every where and two otherwise sane British officers engaging in the pleasure occupation of trans-hunting on the nearest night we've had for months."

"Come on, Clay," shouted Pennington, whose irritability had taken him out of earshot.

"Want half a minute. I fancy Dawson's on the right track."

"Oh, what is it?"

"Just this," murmured the D. O. "The dispatch from Hewitt was several hours late. You remember I remarked on it. The runner was one of Chad Seven's agents. He wormed his way up from the rear, using the message as his passport. Stopped into Clay's tent and came on to you afterward. The bundle is a pretty good least, you know, and there's nothing so good as getting one's opponent rattled at the start."

The tall man nodded approval and the hard lines vanished from Pennington's forehead.

"The runner from Hewitt? I never thought of that! We'll interview Robert Phil on our way round. I don't like the idea of that fellow wandering about with all that information with regard to our movements," remarked Pennington. (He is possessing of a note signed by himself, into the bargain. Heaven only knows what use he intends to make of it.)

The deluge had given way to a steady downpour as the two men passed Clay's tent.

The taller man, who was following close upon Pennington's heels, stepped aside to avoid a stump and hit his foot against something soft and bulky.

"Say, Pennington!—just a second."

He found Clay stooping over a prostrate form.

"What's the matter?"

"I'm not quite sure. There's a fellow here—yes, by Jove, with a knife stuck in his back. Confound it, the moon's gone! Got a light?"

An electric flash-lamp threw a narrow silver ray.

Clay came to his feet.

"Dawson was right," he said quietly. "He was dead right."

"Who it is?"

"My orderly—that's all."

Dawson moved restlessly in his sleep, then sat bolt upright. A hurricane was blowing outside.

He rubbed his eyes and yawned. He was still in sole possession of Pennington's tent. He consulted his watch. It was close on three.

Suddenly—where on the wings of the wind—their waiting to his ears the sound of rapid firing, a babble of discordant cries, and something seemed to be coming through the material above his head with a spitting, significant zip. And then—from somewhere close at hand—came the deep droning note of a Dawson gun.

"Hell," ejaculated the district officer, and began lurching up his boots with nervous haste. He raked out his tunic and mackintosh, felt to see that his automatic was there, and plunged for the open.

The night was alive with shadows, flitting forms, with blazing torches, the incessant rattle of musketry. And still the deaf-throated gong went its warning message into the darkness.

He splashed his way through the mud, and in a burst of barefooted native soldiers that appeared to be taking no useful part in the affray, and led them in breathless haste toward the spot from which the alarm seemed to originate.

"Get down—all of you," he shouted—and fell on his hands almost on top of Clay, whose long legs trailed from behind a rock and whose cheek was pressed against a rifle stock.

"Phew! you Dawson? Pennington round on the far side at the only other possible point for them to break through."

Clay's rifle spoke.

"That was a beauty, Dawson. We have been it for about an hour. The enemy achieved a minor success at the outset. Caught our rear defenses, mopped up a dozen or so, carrying something on a pole, managed to acquire their way through and join the main body. The Yellow Seven opened up to cover their approach, and we decided to attack. He fired again. 'We're advancing' gradually all along the line. I've promised to take the slope at the point of the bayonet before dawn."

He shouted to someone behind him and a rifle was snatched against Dawson's elbow. Dawson's eye fell at the same moment upon a pile of chips at Clay's side. He thrust one into the magazine.

"Chad-Seven's still up there, I suppose?"

"As far as I'm aware, nobody's broken out. I can't for the life of me imagine what it was they snatched in. It was evidently something important, because they wouldn't stoop to save rounds to secure its safety."

He glanced behind him. "Your fellows should be pretty fresh by now. I fancy I'll try a sortie with my own chips and you can follow with the second wave mopping up everything we've left behind."

"I'll toss you for it," suggested Dawson.

"Be hanged to you!" laughed the other. "I'm in command here, and I'm going to handle the first attack."

He blew a shrill blast on his whistle and, before Dawson could reach what was happening, Clay was gone with thirty odd shadows flitting after him.

Dawson waited fully five minutes by his wrist watch, then, crawling back, mustered his men.

"Off! bayonet! Not a sound until I tell you. Sprung out in skirmishing order and don't lose your heads!" Really fat people are often capable of astonishing feats! Dawson scaled the slope with the agility of an antelope. Wild-eyed, keen with enthusiasm to come up with Clay, he paused to round up those of the enemy that had escaped the initial onslaught.

LETTER FROM LESLIE PRESCOTT TO MISS MARY ALDEN

MY DEAR JACK'S MOTHER:

I don't think you quite realized how you hurt me in the last letter that you wrote me. Surely you must know that I am too devoted to your son to do anything in all the world to make his mother unhappy.

I have been very ill and Jack has kept me from anything that would hurt me, consequently I have never seen any of your letters or one of the letters by your friend, Miss Bradford, that he has received.

Of course you know my mind was somewhat unsettled after the loss of my baby and nothing seemed to interest me in any particular until they brought to me the dearest only boy I have ever seen. Oh I know if you could see him you would love him. You would not think for one moment I was foolish, no, that's not it. I always had a secret wish to have a baby, who otherwise might not have been so comfortable or content in its life and giving it some of these is the greatest good anyone can do.

I am very sorry you have not been well and I hope you will understand after getting this letter that I have not been neglectful of you, but I have been so ill myself that everything which would possibly in any way distract me, no matter how slight, I kept from me. We grow a little selfish over our own ill, do we not?

No, my dear Jack's mother, I am sending you today my check for the amount of money you said you needed. I cannot understand why Jack has not sent it to you before. I would like to know for one moment you had a feeling that because Jack had married me he was neglectful of you. I want you to feel you have not lost your son but you have gained a daughter.

I hope you will forgive me, however, if I say to you that probably one of the reasons of this misunderstanding between Jack and you is that he has resented the interference of Miss Bradford. I did not see her letters but from what Jack said about them I know he thought she had been "rough" to him.

Surely you know your son well enough to realize that he always is exaggerated when anyone "butts in" as he says into a family affair. Even I would not presume to advise him as to his conduct toward you. Of course I understand that to you Miss Bradford is perhaps a dear and valued friend, but Jack probably felt she was a stranger to him, as she is an utter stranger to me.

Please do not misunderstand me, dear Jack's mother, because I am only trying to unravel the tangle, one of the little tangles in that big tangle which we call life.

Most sincerely,
LESLIE PRESCOTT.

THE NEWS' SOCIAL AND HOUSEHOLD PAGE

YOUTHFULNESS AND CHARM SHOULD BE PACKED IN THE TRUNK OF THE COLLEGE GIRL

The frocks which school girls will put in their trunks this year are more simple and girlish than they have been for years. This is in keeping with the passing of the flapper, as it should be.

A young girl is never so attractive, and charming as when she is clad in girlish costumes, the kind that only youth can wear. When she dabbles in the field of older women's costumes she is doing them a favor by wearing the same sort of frocks then she is in direct competition with them.

But when she wears the flimsy middie, little ruffled petas and plaited skirts with socks, she is setting a pace it is hard to follow, for such things look ridiculous on anyone over twenty.

Then the girl is going away to college, she is going away to college with the ideal college wardrobe with her. In view of the harassing queue of clothes for the entire academic year, she should be equipped with a few things that will last her many months of thought and wear, and the vacations at home are brief to have their bliss marred by a change of wardrobe.

So the wardrobe should be planned with an eye to quality instead of quantity.

First one puts at least one durable dress into the trunk for class wear. This should be a dress, not too many styles, but kept in good condition, without too many fancy buttons or too much lace to be kept sewed in place. An additional requisite that most girls demand is that it shall be of a color easily adjusted during the last seconds before the breakfast

couple of light-colored taffetas or a light blue, simple in mode and too low in the neck should be put in for dinner wear.

One more, swimming is within a place on the college curriculum, and girls who do not know how to swim are required to take instruction. An elaborate bathing suit is allowed in a swimming tank, in some college tanks only the "nette" is permitted.

Only one best dress is light it will endure constant sun-bleach with better grace if it is of a color that can be worn with different collars and cuffs, varied necklines, fresh gimpes, or, if a dress of the same type, different collars or silk smocks may be worn over the same slip or skirt.

For the happy hours on the athletic field or in the gymnasium, you need at least four middies, or skirts and a pair of serge bloomers, regulation color for the middie, blue. At least one of the middies should be of wool, for the out-of-door season.

At least one old skirt for picnics, rainy weather must go into the trunk, a macinaw or sweater, hiking or skating, one long warm

for general wear, a pair of heavy socks and a hat or tam that can be put on independent of the trunk, can be worn to the lecture room, out the girl behind you saying, "You look like a book!"

What? It shuts off any of the blackboard. A larger and older hat may be taken for Saturday afternoon trips to town or week-ends.

Nearly all colleges there is considerable distance between some of the buildings and laboratories. They may be very cozy in the winter, but in the summer, when walking or on a bicycle, but in living rain your cheerfulness will be upon whether you are dressed properly. Umbrellas have an annoying habit of becoming lost or forgotten in the bustle, and scramble of going classrooms. Furthermore, require a delicate art of handling when the wind blows and you are in a hurry to get to the lecture.

So it is best to eliminate all cells altogether from the rainy season of things, and provide with a long raincoat that button firmly from neck to hem, a rubber that can be pulled well down the head, and rubbers.

Harry Coughlin Sets Up New Record in Swim Across Lake

Instructor Spans Sabine in 3 Hours 40 Minutes Time

Grueling Grind Across Turbulent Pool Starts From Louisiana Side of Lake at 11:30, With Launch From Port Arthur Following

By BILL ARCHER

SWIMMING "hand-over-arm-side, under-hand-pull," Harry L. Coughlin, professional instructor at Plaza Nat during the past season, spanned the 12-mile distance across Lake Sabine yesterday in three hours 40 minutes, completing the longest salt water swim on record in the United States, and coming up out of the water at Pleasure Pier the first to cross the turbulent pool.

With a grin of victory beaming out of a badly blistered face, his arms and body red from the sun which had beaten down upon him as he swam, Coughlin slapped his hands against the wall of the Pleasure Pier yesterday afternoon at 3:10.

"Good old pier," the swimmer laughed as he came out of the salty water. "I sure am glad to see you!"

A small crowd of swimming enthusiasts who had learned of his intentions to span the 12-mile course had gathered at the pier's end to greet him, and Coughlin was busy for several minutes receiving the congratulations of the aquatic exponents who were proud of the first man to execute the feat he had just completed.

Coughlin's stroke used all the way across is one of his own origination. The swimmer declares he is of the opinion it is one of the best strokes that can be used in long distance swims.

"I have used it several times," he declared as he stood on the banks of the pier, the water from a somewhat rough lake dripping from his bathing suit. "I have always found it successful, and it stayed with me yesterday in the pines."

Coughlin developed a cramp in his stomach when within a mile of the pier, but the water artist, intent on setting up a new record for this section, refused to let that defeat his purpose. Turning on his back and doubling into a knot, Coughlin began a rough massage of his abdominal muscles, with the result that he gained some, although not complete, relief. He complained of his stomach as he landed on the pier.

The stride he developed the last mile of the race in face of the cramp which gripped him, showed in the strong frame of a little body a gameness that only years of experience in the water could have developed for Coughlin.

Accompanied by Howard Perkins, driving a gas launch furnished by the Port Arthur Sporting Goods company, and three local amateur swimmers, Coughlin, Fred Louie, Clayton Lee, Hlane and Jimmy Seales—Coughlin left Port Arthur early yesterday morning, landing on the Louisiana side of Lake Sabine, the Port Arthur professional, plunging into the water at 11:30 a. m., starting his long, grueling grind across the lake.

The launch, which was driven by Perkins, averaged nine miles an hour on the trip over to the farthest corner of the Louisiana side, in the southeast section, the trip over requiring one hour and 40 minutes in landing there.

Coughlin's time fell only two hours short of being as rapid as that of the launch, the local artist averaging a mile every 18 minutes. The cramp he developed on the last lap of his course is believed by those who accompanied him to have retarded his time several minutes, and it is believed he would have cut some out of his time but for that obstacle.

Had the course been marked each half mile, it is very probable that Coughlin would have set up some new records for the half mile on a 12-mile course for this country. His feat, at that, is unequalled in the records, and will go down on the good books as the longest salt water swim to have ever been completed in the United States.

Coughlin said numerous fish and shrimp were striking all the way across the lake, and it was his opinion that the fishing ought to be good in the body of water at this time.

Taking a diagonal course across the lengthy lake, Coughlin swam from the farthest southeast portion of the Louisiana side toward the grain elevators, doubling back on his course in the other direction to land at the pier.

The most remarkable feature of his feat is the time he made in spanning the 12 miles; many who know of his intentions to swim the pool believed he would do well to land here by 6 o'clock.

Those who waited for the lone form of a swimmer with an indomitable will power were both surprised and pleased when the aquatic artist, shugging the water with his powerful stroke, pulled his way toward the pier for his record time of 3:40.

HERE is a new departure method in the manner of comparing prizefighters. The gentleman in white is none other than Champion Jack Dempsey, against whom is silhouetted the blackened figure of Luis Firpo.

These outlines are actual photographs, taken by Bob Dorman, Port Arthur News NEA photographer, who made them to scale and enlarged each the same amount.

When making the first picture, which was of Dempsey, Dorman marked the spot on his camera where it had been focused, and then hustled away to Atlantic City, where, setting his camera at the same mark again, he backed away from Firpo until the focus was sharp. The combined results gave two photos—one of Dempsey and another of Firpo—which had exactly the same perspective and measurement in every detail. These were then cut out, superimposed and painted over, producing the graphic comparative sizeups seen above.

PAPYRUS LOSES ENGLISH RACE

Tranquil Finishes in Fore Over Favorite

LONDON, Sept. 12.—Papyrus, winner of the Epsom Derby, who is said for New York to meet the best American 3-year-old, was beaten by Tranquil in the St. Leger classic today.

Papyrus, the favorite, finished second, and Teresina third. Thirteen horses ran.

Part of the race, and second favorite finished fourth.

Tranquil, coupled in two lengths ahead of Papyrus, showing complete superiority over the Irish horse at the finish.

Papyrus was a close third, finishing only a length and a half behind Tranquil.

Defeat of the British champion, however, will not cause any change in the plan to send the horse to America for the international race, classic that Papyrus would go to.

New York to defend the Union Jack no matter what the outcome of the St. Leger race.

Today's race, a mile and six furlongs, was slightly longer than the famous derby, which is over a mile and a half course. The result bears out the prediction of many horsemen that Tranquil is the best runner in Britain for the St. Leger distance.

Dempsey Admits Angel is "Big Tough Fellow" Who Packs an Awful Wallop

By HENRY L. FARRELL

WHITE SULPHUR SPRINGS, N. Y., Sept. 12.—Three very important factors will have a part in deciding the heavyweight championship when Jack Dempsey and Luis Firpo meet Friday night in New York for the title.

Physical condition, technical qualifications embodied in the ability to box and hit and the mental factor, all will have a most important part in deciding whether the ring is to have for the first time a heavyweight champion who cannot speak English.

Dempsey has a decided advantage in two respects and it is his known superiority in boxing and hitting and his apparent mental edge that makes him a heavy favorite to defeat the big South American and retain his championship.

Both the champion and his worthy challenger seem to be in the best of condition. They have trained along their own lines and both have the advantage of at least one fight upon which they started their training. Dempsey, in one respect, seems to be in better shape than Firpo in that he has shown more endurance and better will.

Dempsey has profited by having a first class string of sparring partners against whom he was able to develop both speed and punching power. Firpo had a terrible bunch of huns in his camp, so that what he has developed technically in his training is not certain.

After watching both fighters in and out of the ring during the most important part of their training, no one more prepared than Firpo. The champion beyond doubt has not a worry on his mind while on the other hand, Firpo has shown unmistakably both in his speech and in his actions that he is carrying a few doubts with him. Firpo cannot hope to win if he has the slightest doubt that he can't win.

Dempsey's piece of mind was shown this morning when he spent almost an hour reading a pile of mail that comes each night, about to the newspapermen and remarked that he never knew he was good looking until he read some of the letters.

"Maybe the girls will not say I am so good looking next Saturday morning," he commented.

Many interviewers, including a this morning, each delegation asked questions of sub-sisters, visited him what he thought of the coming fight and on each occasion he turned to the boxing writers and said: "You tell 'em, boys."

And the answer came back in chorus: "He's a big strong fellow and can hit. It will be a tough fight."

The champion concluded training yesterday afternoon with a light boxing session. He will have a light warmup this afternoon and will grab the train for New York in the morning.

After the shave, he was applying the "headlock" to the newspapermen and seeking them playful jabs that almost knocked them down.

"Why shouldn't I be cutting up?" he asked. "I feel better than I have at any time since Toledo. No, I'm not as good as I was then. I will never be that good again. I admit that I can't hit as good as I used to, but I have learned some other things that will make up for a little lack of steam."

Dempsey spent an hour this morning "picking" his hands and his face to bring. He always does that before a fight.

"It destroys my beauty, but this old brute sure lardens the skin and that Firpo is a big, tough fellow who—" the champion started and the word "can hit and it will be a tough fight."

ZUPPKE ISSUES CALL TO SQUAD

Illinois Has Good Outlook for Grid

URBANA, Ill., Sept. 12.—Coach Zuppke has ordered 40 candidates for the Illinois football team to report on Illinois field Saturday morning, Sept. 15, and the boys will all be there because everybody is eager to win a place on the team which will have the honor of opening the stadium, "Zup" hopes to establish "blue light practice" by getting his squad on the field early enough to quit at 5:15 o'clock.

About 14 of the 20 men who received varsity letters in 1932 will be available. Nearly all of them were new last year. They were good fighters but they had a lot to learn. They should be much better players this season.

Wilson, end, and Hill, fullback, were graduated. Happenny has gone into professional baseball. Clark, quarterback, Dawson, sub quarter, and Agnew, sub tackle, will not be available. It is said.

Captain Jim McMillan and Miller, guards, and Green, center, form a middle trio that looks strong. Roberts, sub center, and Tammis, who played much of the season at guard, must also be considered. Wagner and Oakes, tackles, and Richards and Hoke, ends, have the prestige of a year's experience but must defend their jobs from ambitious freshmen.

Conte is the only quarterback left. He is a good passer and punter. He kicked two field goals for a victory over Northwestern last year. McMillan, who scored Illinois touchdowns against Iowa, and Robinson, fullbacks, and Schultz and Westward, fullbacks, are the veteran backs. Westward, originally a fullback, was used as halfback against Chicago but may be tried as an end.

Among the promising boys from the 1932 freshmen are: Brown, 175; Hall, 210, and Wickhorst, 200; tackles, Crawford, 185, end; Grange, 191; Mauer, 162, end; Baur, 150; fullbacks, and Bratton, 150, and Carr, 170, fullbacks.

Other line candidates will include big John Conz, center; Margolis and Schlimmer, ends; Fitzpatrick and Shaw and Hall, quarterbacks, and end, Hall, who is a brother of "Swack" who in 1911, may be considered for quarter.

"Zup" again will be assisted by "Just" Livingston, Ernest Beaz and Claude Rothgeb, while Ingwersen will coach the freshmen. Matt Bullock is trainer. George Boddick, 24, Chicago is student manager.

Three weeks from the opening of practice, Oct. 6, Illinois plays Nebraska on Illinois field. This will be a battle.

Wife Ejects Sick Husband, Charge

LOS ANGELES, Sept. 12.—Charles F. Seranton of Tammis will seek money from his wife, Mary F. Seranton, through a suit which was on file in the superior court. According to the complaint, Seranton is an invalid and has been unable to work for more than a year. He asserted his wife earns more than \$100 a month and in addition receives \$20 a month from the rent of a house. He declares his wife reported to him from her home and told him she didn't want him around any longer.

FORGERY CHARGED TO NEGRO AT GONZALES

GONZALES, Texas, Sept. 12.—Willie D. Bates, alias Henry Williams, negro, check forger, was landed in jail today on a charge of attempting to pass a forged check on the Dilworth Bank after having succeeded in several other places.

Officers and employees at the bank were on the lookout for him and when he offered the check he was held for the sheriff. Seven years ago the negro was caught raising an express company's money order for 25 cents to \$75.25 and attempting to purchase an automobile with it. He was sentenced to two years in the penitentiary but was given a suspended sentence. He was placed in jail pending an examining trial.

Puzzling Plays

By HILLY EVANS

THE PLAY
In the last half of the fifth inning there are runners on first and second and two out. It is Smith's turn to bat. He is the fourth man in the batting order. Lucinda Jones, who is the fifth man in the batting order, is in the field then discover-

ers that Jones has batted in place of Smith and an appeal is made to the umpire for a ruling on the play.

Do the runs score? Who is called out on the play? How is the batting order cared for in the next inning?

THE INTERPRETATION
When a player bats out of order and the mistake is discovered before a ball is pitched to a succeeding batter, the proper batsman is called out. Incidentally no bases can be run on any act of an improper batsman.

Since Smith was the improper batsman, the umpire in charge should have called Smith out when Jones batted out of turn. The two runs that crossed the plate are void, as no bases can be run on the triple made by the improper batsman, Jones.

The first batter in the next inning should be Jones, as he follows Smith in the batting order. Smith was the third out in previous inning because Jones had batted out of order.

Theatrical Man Becomes Sailor

NEW YORK, Sept. 12.—With his bell-bottomed sea-going pants, rolled to the knee, which he cocked at a jaunty angle and humming a swag with the dexterity of an old salt on a cruise "round 'd Horn" Earl Carroll, showman, was discovered on the fore deck of the Lexington when she crossed the equator.

When the ship was men inquired if he was sailing "color" for a crewed or officer and Sullivan's 14 more nautical "matters" "Pardner" or maybe a nautical feature for his next show, he said:

"Neither, mates. I took to the ocean for my health. The motor sailer would do me good. I thought if sea air would benefit me, sea water, the real baby deep about me here, would be doubly beneficial. Therefore, I shipped on this paragon of an able-bodied seaman."

Entry List for City Net Clash at Country Club Closes Thursday Noon

Entry lists for the young men's division of the City Tennis tournament closes Thursday at noon.

First pairings for the opening round of play on Saturday of this week will be announced in the News sports page Friday.

The time of the opening rounds, etc., will also be announced at that time.

These were the important announcements made this morning by Jack Neely, professional, under whose supervision the tournament will be conducted at the local Country Club.

The list of male entrants was boosted considerably this morning when Tom Wilhelm, David W. Eddy, A. A. Gunter and Dick Ellis announced their candidacy for the attractive silver loving cup offered by W. P. McFarland, jeweler, for winner of the singles division.

To this quartet of players, more or less in the class of play courts shakedown, add the following and you have the complete list of young men entrants to date:

Joe Sanford, D. I. Ducote, C. A. Paxton, G. E. Caldwell, Felix Broussard, Darrow Babcock, H. C. Gosh, Andrew Rock, Brandon Opman, P. C. Chamberlain, J. F. Palmer, Rome Woodworth, Edwin Goldberg, Clifford Bird, A. T. Denton, H. A. Gully, Leo Dupont, E. O. Perkins, Malcolm Stratford, Vance Jenkins and Evel King in the running.

That makes a total of 26 entrants for the young men's singles trophy, and the list is indicative of a warm session at the Country Club. The meet, in the words of Neely, promises to be as successful a venture as could have been hoped for.

Several young ladies entered the girls' division yesterday, and the names of the lady players will be published prior to the date of the girls' tournament. Neely plans to hold the two divisions at separate intervals on the Country Club courts.

Local tennis players are urged to notify the News sports editor if any names have been omitted from the list in order that none be left out.

Watch for the pairings Friday, and see who you play and when. Then get the cup!

False Teeth Gift Stirs Wives Ire

WASHINGTON, Sept. 12.—Charging that her husband gave another woman in Alabama a set of false teeth and squandered \$220 on liquor for himself, an answer was filed yesterday in district supreme court by Mrs. Mary M. Jones, to the petition of Archie J. Jones for a limited divorce.

She asks she be granted a limited divorce.

Moreover, ice water and cigars proved the bane of her existence, she alleges. Her husband often would awake after midnight, smoke one cigar after another and imbibe much water according to her cross bill.

She attributes this to drunkenness.

Here's What Stars Think About Luis And Jack's Bout

NEW YORK, Sept. 12.—Mary and Doug, Georges Carpenter, Charlie Chaplin, L. D. Fiano and Joe Beckett pick clear across the equator when the Buenos Ayres bull meets the heavyweight champion at the Polo grounds Friday night.

Mary (at Hollywood)—Dempsey will win but Firpo is courageous in coming to a strange land and almost reaching the top.

Doug—Dempsey ought to knock Firpo through the ropes by the third round.

Georges (at London)—I think Dempsey is a certain winner. Firpo is too young in the game to beat a great champion.

Charlie (at Los Angeles)—Dempsey will win, but I'd sure like to see Firpo in action.

Fiano (of Paris)—Dempsey will win, but Firpo should not be considered lightly. Monsieur Jack is wise in trying to break as soon as possible the career of a man who would become a real champion.

Joe Beckett (at his English training camp)—I think Dempsey will win.

Betting continued heavily in favor of the champion today. Wall Street was offering 7 to 5 for a knockout and 2-1-2 for a win.

2 DESTROYERS TO BE SALVAGED

20 Men Still Missing in Navy Tragedy

LOS ANGELES, Sept. 12.—Two of the eight vessels which went ashore in the Santa Barbara channel during Saturday night's fog may be salvaged, it was learned today.

The destroyer Chaguan, the least damaged of the wrecked destroyer fleet was the object of salvaging operations of a wrecking crew from the Mare Island navy yard, which arrived at Point Arguello today. Plans are under way for the immediate floating of the vessel but the other six destroyers are to be left to their fate on the rocks. The freighter Cuba, which went ashore on San Miguel Island only a few miles away possibly be saved by the tug Pecos which left San Pedro today. Captain Holland of the disabled boat is remaining on the island until this last chance of saving the vessel either proves successful or is abandoned.

Meanwhile, naval officials prepared today to give evidence concerning the destroyer disaster to the special board of inquiry set up at San Diego. Motion pictures taken from the wrecked vessels from navy airplanes are to be flashed on the screen for the benefit of the investigators.

The work of recovering the dead is progressing slowly and was again impeded last night by a fresh thunderstorm which unexpectedly broke along the coast. Under the fitful flashes of lightning, searching parties scoured the barren reef but no additions were made to the three bodies already recovered. Twenty men are still missing, according to the revised official casualty list and an attempt may be made today to break into the hull of the destroyer. Young where most of them are supposed to be.

FALL KILLS MAN, 65, TRYING TO SAVE KITE

NEW YORK, Sept. 12.—Richard Koellhoffer, 65 years old, of Newburgh, is dead, and the children of his neighborhood mourn their kindest friend. The old man died in the service of one of his little chums. He was sitting in his home when he heard the lamentation of one of "his" youngsters. The boy's kite was trapped in the branches of a nearby tree, and unless it were freed, soon it would be torn to pieces by the wind.

Koellhoffer forgot that age had stiffened his joints and climbed into the tree. As he tried on a limb reaching for the kite, the limb broke and plunged him 20 feet. He struck on his head and his skull was fractured.

Two of the negroes were arrested in Sweetwater and liquor was found in the car they were driving.

JACK REYNOLDS WINS 2 BOUTS

Takes Cupid in Tow—Then Champ

COLUMBUS, Ohio, Sept. 12.—Jack Reynolds, Indianapolis, retained the world's welterweight title in the wrestling match which followed his victory in Fairmont Arena last night. Taking two out of three falls, Reynolds defeated Logan, champion of Cheyenne, Wyo., in a championship bout.

A few minutes previous to the contest Reynolds, wearing a bathrobe over his trunks, entered the ring and was married to Miss Bonnie Lloyd, saxophone soloist in a ladies jazz band.

Jonny Meyers refereed the wrestling bout. Rev. H. S. Bailey officiated at the wedding.

BABY PLAYS OPERA AIRS ON THE PIANO

NEW YORK, Sept. 12.—Predictions that Leo S. Kishner, 27 months old, would become a Beethoven, were made as neighbors listened to a piano concert given by the child.

The infant played portions of such compositions as "Over the Waves," "La Paloma," an air from Rigoletto, and Schubert's "Minuet Militaire." These were varied by sketches from "Yankee Doodle," "Yes, We Have No Bananas" and other airs.

The little fingers, that could not half spin an octave, skinned the keys with a sure touch. His father, a photographer, said the child had begun when eight months old to hum airs played by his sister.
